Billing Information:

(Please select a rate option)

Standard Rate

The customer will pay all applicable Full-Service monthly standard tariff charges for their Full-Service rate, plus the LC-REP Program subscription charge based on the customer's selected participation level, monthly usage, program supplied generation and service agreement term. The customer will be billed on a calendar-month basis.

Market Index Provision

Full-Service customers served on Rate GPD, who elect to match a minimum of 85% of their total energy use, in the previous 12-month period, with renewable energy may substitute the Real Time Locational Marginal Price (RT-LMP) at Consumers Energy's Zonal Load Node, plus a Market Settlement Fee of \$0.002 per kWh, for the standard rate power supply energy charges. Customers selecting the Market Index Provision shall be responsible for all capacity and non-capacity Power Supply charges included in the standard Full-Service GPD Rate. Customers may select the Market Index Provision on an annual basis for the program after providing a 60-day advance notice.

Renewable Energy Credit (REC) Treatment:

(Please select a REC Treatment option)

Retire REC

Consumers Energy will track and retire the RECs via the MIRECS system associated with the customer's subscription.

Transfer REC

Consumers Energy will transfer the RECs via the MIRECS system associated with the customer's subscription to the customer.

Contract Term:

Three (3) year, ten (10) year, fifteen (15) year, or twenty (20) year Service Agreement options. The subscription charge will be a flat fee based on the levelized cost of service of the designated renewable energy facilities approved within the Program and other program costs. If facilities are added to the program at a lower rate, the subscription fee will be prorated for all subscribers, resulting in a net decrease in the subscription fee for all customers. If facilities are added to the program at a higher rate resulting in an increased subscription fee, then customers currently paying a lower amount would retain that amount for their current subscribed participation during their contracted period.

Re-enrollment: If the customer elects to re-enroll in the Program after their initial or subsequent three-year Service Agreement term ends for an additional three-year Service Agreement, then they will pay their current subscription charge plus a 2% increase for the subsequent enrollment term. The 2% increase will be limited to three-year re-enrollments, after which it is subject to increase at the Company's discretion. A customer may elect to re-enroll from a three-year Service Agreement to a 20-year Service Agreement at the same rate, subject to availability.

The customer's subscription will begin with the effective day of the contract, which must be entered into within 90-days of this Application or at the time the applicable renewable resource is available to the Program.
